How to Enable the Co:Writer Keyboard in Apple iOS
How to Enable the Co:Writer Keyboard in Apple iOS

Once the app has been installed, the Co:Writer Keyboard can be enabled.

ENABLING THE KEYBOARD

1. Go to the device Settings

2. Select General

3. Select Keyboard

4. Select Keyboards

5. Select Add New Keyboard...
6. Select **Co:Writer Universal**

Co:Writer should now appear in your list of Keyboards on your device.

7. Select **Co:Writer Keyboard—Co:Writer Universal**

8. Toggle **Allow Full Access** to “On”

9. When prompted, select **Allow** to allow full access for Co:Writer Universal Keyboards

Now you can open a writing app and begin typing with the Co:Writer Keyboard!
