

Reading Accommodations

You want to help your child learn more independently, but they still need support. The good news is that technology can help bridge the gap—through accommodations.

What is it?

Your child's **Reading** Support Tool

Snap&Read gives your child a toolbox of reading tools to use wherever they read (websites, Google Classroom, ebooks, worksheet, and even tests) into an audio book. Snap&Read can read text aloud (like an audiobook), simplify text, translate into over 100 languages, and provide executive functioning tools, highlighting, and note-taking supports.

Why is it important?

Students experiencing many types of reading difficulties use Snap&Read to support their learning. Language Learners use it to help translate, support vocabulary and hear text read aloud. Students with dyslexia, autism and cognitive disabilities use Snap&Read to support their reading, (often students can comprehend at higher levels when text is read aloud than when read independently).

When will it be used?

Google Classroom or Learning Management System: Read directions, simplify text

Worksheets: Annotate (highlight, take notes and write on top of PDFs)

eTexts: Read, define, simplify any text

Quizzes: Read aloud

Research Papers: Outline templates help organize, citation tool assist with document citations

Getting Started

• Snap&Read Parent Guide

If your child has a license through your school district, there's a very good chance the login is tied to their school email address, but some schools set up a dedicated username and password. Ask your child how they log in.

My child needs to start using this NOW.

How can I get up to speed fast?

• [Getting Started](#)

• [My child needs to start NOW](#)

• [Learning Academy](#)

Go through the [Student Learning Academy](#) (donjohnston.com/learning-academy) with your child. There are three - **10 minute** segments including video and other resources that will walk through how to use Snap&Read.

What can I expect as my child uses the tool and does their school work?

What can I expect...

For many students, reading and writing is extremely difficult. Snap&Read helps bridge the challenges with reading. Like many tools, it may take some time to get accustomed to.

Teachers and assistants can:

- Encourage your child to use their tools.
- Break tasks down into smaller pieces.
- Celebrate success on the smaller pieces.
